04 March 2010

Dear all who are attending the V SIAQ conference,

We, professor Gustavo Cabrera and me, have decided to officially announce the postponement of the V SIAQ for 3 months, due to the consequences of the Chilean earthquake.

At the moment, the best dates would be the 6 to 9 of June, keeping a similar schedule as programmed earlier. These dates can still change and is only preliminary, since we did not hear all the local scientific committee.

Santiago del Chile is currently returning to normality, but the transport system has not been fully restored yet. We are going to give further details, both, by e-mail and by our home page.

I ask you please to help me to communicate with everybody. Forward this e-mail and tell our colleagues about the postponement.

I hope we all manage to exchange our air tickets and to keep the enthusiasm that so far, we have demonstrated having. We will keep you informed.

All the best to everybody and regards,

A handwritten signature in black ink that reads 'Telma Franco'.

Prof. Dr. Telma Franco

President of SIAQ
